

Sujal Dhoke

VAPT Analyst — Penetration Tester

Pune, Maharashtra, India

+91 9112951905 — dhksujal@gmail.com — LinkedIn — Portfolio

Summary

Specializing in Vulnerability Assessment and Penetration Testing (VAPT), with hands-on experience in identifying, exploiting, and reporting security vulnerabilities in web applications and systems. Strong foundation in computer networking, Linux, and Python scripting for security automation. Ranked in the Top 1% on TryHackMe, demonstrating advanced practical skills through consistent lab-driven learning. Actively seeking a penetration testing internship to apply offensive security techniques, enhance real-world exploitation skills, and contribute to strengthening organizational security posture.

Skills

- Web Application Security: OWASP Top 10, Input validation, Security misconfigurations
- VAPT & Offensive Security: Reconnaissance, Enumeration, Vulnerability Analysis, Exploitation basics
- Tools: Burp Suite, Nmap, Wireshark, Metasploit, Gobuster (basic level)
- Programming & Scripting: JavaScript, Python, Bash (Basic Level)
- Operating Systems: Linux (Ubuntu, Kali), Windows, WSL
- Networking Basics: TCP/IP, DNS, HTTP/HTTPS, Common ports and services

Projects

Phishing Simulator

December 2025

- Developed a phishing simulation platform for security awareness and SOC training purposes.
- Implemented email campaign creation, target management, and phishing template handling.
- Integrated AI-based phishing email generation to simulate realistic phishing attack scenarios.
- Designed to help understand phishing detection, response workflows, and user awareness training.

Education

DY Patil Technical Campus, Varale, Talegaon

September 2024

Master of Computer Applications (MCA) (Pursuing)

Sri Shivaji Science College, Congress Nagar, Nagpur

June 2024

Bachelor of Computer Application (Computer Science)

Certifications

- The Complete Hands On Cybersecurity Analyst and Ethical Hacking On Udemy April 2026
- Advent of Cyber Competition Certificate December 2025

Achievements

- Ranked in the **Top 1% globally on TryHackMe** through consistent hands-on practice and lab completion.
- Completed multiple real-world offensive security and web exploitation labs.
